

Dear Valued Customer,

Svizera Europe holds a product range of **over 4000 Individual products**. To give a better understanding of our product range we have described our product range categories. In these categories we can supply many different items in different quality levels, from basic equipment with a budget in mind to the most high-end equipment available.

The 4 Pillars Of Svizera Europe's Product Range Are:

- Pharmaceutical
- Equipment & Consumables
- Diagnostics
- Kits

As the list of products is extensive, we have decided not to list each separate product in our product list.

PHARMACEUTICAL

Thanks to our many years of experience in the pharmaceutical industry and our own production facilities, we are able to supply a wide range of pharmaceuticals in different forms and packing sizes from the WHO essential drug list with the exception of controlled substances.

TUBERCULOSIS MEDICATION

Svizera Europe is a well-known supplier of anti-tuberculosis medicines. Due to our partnerships, we can invest in the development of new products that contribute to the advancement of tuberculosis treatment worldwide.

Our dosage forms of our Tuberculosis medication include tablets, capsules, suspensions and powders for injection. All our anti-TB drugs in tablet form can be supplied in bulk packaging as well as blister packaging. The unit pack size and layout of the packaging can be adjusted to the needs of the program. For specific requests please do not hesitate to contact us

CUSTOMIZE YOUR KIT

As every situation requires a different approach with different products, making and developing kits is Svizera Europe's speciality. We have a broad range of kits and the capability to customize your own kit.

A kit consists of a range of basic products. Even with basic kits there is an opportunity to choose from several variants of one product that comes with a kit. The number of products can change as per demand, but also the nature of the product can differ each time.

Our clients can decide which version of the product they would like to have in their kit. In this manner they have the possibility to create a kit which perfectly meets their needs regardless religion, culture or circumstance.

Our dedicated team can advise, replace and make the kit as per the specific request of the customer.

ARE YOU LOOKING FOR A SPECIFIC PRODUCT OR KIT?

As the list of products is extensive, we had decided not to list each separate product in our product list.

All our diagnostic supplies, equipment, consumables and kits can be customize to suit the specific needs of our clients

Please contact us for any requests including essential medicines, medical consumables and equipment or chemicals. We will then go through the requirements and we will prepare a quotation accordingly.
